DETAILED ACTION

1. New corrected drawings are required in this application because the drawings filed 12-8-03 are informal. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.
2. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they do not include the following reference character(s) mentioned in the description: label 256 (page 13). Corrected drawing sheets are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.
3. Claims 1-3 are objected to because of the following informalities:

Re claim 1, "side frame" on line 11 should be —frame side—for consistency. On line 12, "end frame" should be —frame end—for consistency. On line 52, "the legs" should be —at least the first and second legs—for added clarity. On line 116, "the

frame" should be —the base section frame—for added clarity. On line 117, "the frame" should be —the base section frame—for added clarity. On line 118, "the second corner" should be —the second corner of the base section frame—for added clarity. The term "the frame" bridging lines 120 and 121 should be —the base section frame—for added clarity. On line 122, "the frame" should be —the base section frame—for added clarity. The term "the fourth corner of frame" bridging lines 123 and 124 should be —the fourth corner of the base section frame—for added clarity. On line 127, "the storage" should be —a storage—for added clarity. On line 148, "the frame" should be —the base section frame—for added clarity. Finally, on line 151, "the frame" should be —the base section frame—for added clarity.

Appropriate correction is required.

4. This application is in condition for allowance except for the following formal matters:

See objections in paragraphs 1, 2, and 3 above.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

5. Claims 1-3 are objected to for the minor informalities noted above but are otherwise allowable.
6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Note at least McDaniel teaches a foldable rack assembly.
